Summary

Hi! My name is Tal mizrahi (@mi_zo_mizo on social media), I am a qualified designer, I graduated a course of graphic design for digital media at 6b studio.

As of this moment I am working as a graphic & UX/UI designer & web developer at [lotem strategies](#) in-house design studio.

Why am I also studying Visual communications in shenkar college, might you ask. well, I wanted to deepen my knowledge even more, to be the best of the best.

Relevant Experience

2019 - Today

Lotem Company

Graphic Designer &
WEB Developer

The last 3.5 years have been amazing in my job as a graphic & UX/UI designer and web developer in Lotem strategies design studio, where I Design B2B products-

like leraning softwares, Conferences, MOOCs with studio production, and taking charge of all things WEB. I created the Lotem online catalog, landing pages and more!

2018 - Today

Freelance

Graphic Designer

As a freelencer in my free time, I created branding & wordpress websites for clients.

I worked with clients such as Shira Kochan - architect & interior designer for logo & wordpress website, Living Lite blog by Daniela Haluts for logo & wordpress website, Airplants.co.il for logo & branding, Alopex company for brand visual language and more.

2018

Bachar school

Special needs child's
assistant

Prior to kickstarting my professional career in graphic design & web development, I was drawn to education- primary children with special needs.

In this role I helped a child with asperger's syndrome in his transition from the special needs class to a regular class. I learned alot during these fascinating roles.
