Summary

Hi! My name is Tal mizrahi. As of the past 5.5 years I've been working as a graphic & UX/UI designer at [lotem strategies](#) in-house design studio.

During this period I also finished my degree of B.des of Visual communication, in Shenkar College. During my school years I started by majoring in UX/UI and gradually grew more and more curious of the 3D and gaming field, eventually combining all my skills on my final project - "[Spreading Chaos](#)" - a 3D game.

I am hoping to find my next chapter working in the gaming industry.

Relevant Experience

2019 - Today

Lotem Company

Graphic, UX/UI
Designer & Web
developer

The last 5.5 years have been amazing in my job as a graphic, UX/UI designer and web developer in Lotem strategies in-house design studio, where I Design B2B products-websites, leraning capsules, Conferences, MOOCs with studio production, and taking charge of all things web.

I had the honor to design the [UX/UI of the company's website](#).
I also built the Lotem online catalog, landing pages and more!

2018 - Today

Freelance

Graphic Designer

As a freelencer in my free time, I created branding & wordpress websites for clients.

I worked with clients such as [Living Lite](#) blog by Daniela Haluts for logo & wordpress website, [Airplants.co.il](#) for logo & branding and more.

Volunteer Work

[Koshergiving.com](#) is a wordpress website I built during Iron Swords war, a website destined to help philantropes from abroad find legitimate causes to donate to, in order to help Israel in these difficult times.
